

As Pedagogical Companions and Thought Partners

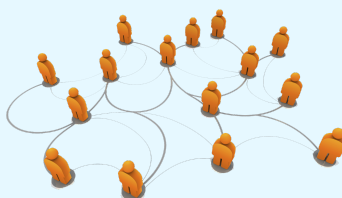

WE VALUE

Reciprocity

"Reciprocity is the art of giving back. I take, but I also give." ~Anona Kampe

We seek learning partners who are curious, and strive to continuously learn and grow together, and then share to inspire others.

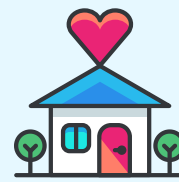

CONNECTED COMMUNITIES

We learn alongside our colleagues and their students.

Inclusivity

We value diverse perspectives and worldviews. We know all ideas are improvable.

Relationships

We value trusting relationships and create environments where everyone feels like they belong.

EDUCATORS AS RESEARCHERS

We have a strong image of students and of educators. We recognize that the beliefs we hold shape the beliefs that learners take up about themselves.

EDUCATORS AS STORYTELLERS

We empower educators and help them share their stories to connect to and inspire others.

Creating the Conditions for Learning

We believe that learning should be invitational, responsive, collaborative & immersive. We believe it is important to create opportunities for educators to experience a variety of learning environments.

Place Consciousness

We believe that context is important. We know we can learn with, from and on the land in which we live. We value Indigenous perspectives.

Research Based Practices

We explore learning that is backed by research & based on the OECD Principles of Learning, the First Peoples Principles of Learning, and BC's Early Learning Framework.

CURIOSITY

We are adventurous and seek learning. We live in uncertainty and discomfort as we explore questions with colleagues and students.
